

## *About the Temple*

Temple Beth El has been serving the community since 1915 as the first Conservative synagogue in Rochester. The present central location was consecrated in 1963 and renovated in 1999.

Temple Beth El, the largest Conservative synagogue in Upstate New York, provides religious services and activities to our 900+ families. Our members constitute a rich cross-section of Jewish life and leadership. We take pride in our ability to preserve our ancient traditions and heritage within the context of modern society and culture. We are fully egalitarian, and we embrace the diverse composition of our families.
